*Comprehensive guide! Its this type of very good read through. It is actually writter in simple words and phrases rather than difficult to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.*

Maker Media, Inc. Hardcover. Book Condition: New. Hardcover. 184 pages. Dimensions: 8.7in. x 8.6in. x 0.9in. Make magazine, launched in February 2005 as the first magazine devoted to Tech DIY projects, hardware hacks, and DIY inspiration, has been hailed as a how-to guide for the opposable thumb set and Popular Mechanics for the modern age. Itching to build a cockroach-controlled robot, a portable satellite radio or your very own backyard monorail. Hanking to hack a game boy or your circadian rhythms. Rather read about people who fashion laptop bags from recycled wetsuits and build shopping cart go-karts. Make is required reading. Now, following on the heels of Make's wildly popular inaugural issues, O'Reilly offers Makers, a beautiful hardbound book celebrating creativity, resourcefulness and the DIY spirit. Author Bob Parks profiles 100 people and their homebrew projects—people who make ingenious things in their backyards, basements and garages with a lot of imagination and a little applied skill. Makers features technologies old and new used in service of the serious and the amusing, the practical and the outrageous. The makers profiled are driven by a combination of curiosity, passion and plain old stick-to-itiveness to create the unique and astonishing. Most are simply hobbyists who'll never gain notoriety for their work, but that's not what motivates them to tinker. The collection explores both the projects and the characters behind them, and includes full-color photographs and instructions to inspire weekend hackers. Parks is just the man to track the quirky and outlandish in their natural maker habitats. A well-known journalist and author who covers the personalities behind the latest technologies, Parks' articles on innovations of all kinds have appeared in Wired, Outside, Business 2.0 and Make. He has contributed essays to All Things Considered on public radio and discussed trends in technology devices with...
