## THE BUMBLE BEE MIRACLE

Xlibris Corporation, United States, 2008. Paperback. Book Condition: New. 234 x 201 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Did you know that there are different types of breast cancer? Did you know that you can have breast cancer without having a lump? Did you know that all breast cancers do not show up on a mammogram or an ultrasound? Have you ever heard of Inflammatory Breast Cancer? Nina Anderson, the author of this book, would have answered no to all of the above questions. If she had known some of these facts, she would have been more suspicious about her symptoms. She was a very health conscious individual. She had a mammogram and Pap test every year and did monthly self breast examinations. When she started having swelling, an inverted nipple, redness and a fever in her right breast, the last thing she ever suspected was that she might have breast cancer. She had hardly ever been sick in her entire life until she was diagnosed with this very aggressive and lethal form of breast cancer known as Inflammatory Breast Cancer. This book is the story of her dreadful ordeal and miraculous survival. Nina considers the sequence of events that led to her early diagnosis a miracle that saved her life. Many women do not survive IBC because there is no lump involved and it cannot be detected by a mammogram or ultrasound. The only way to get a conclusive diagnosis is to perform a surgical biopsy of the breast and skin tissue. The symptoms of Inflammatory Breast Cancer (abbreviated as IBC) are similar to a breast infection known as mastitis. Most women are diagnosed with mastitis or cellulitis and treated with antibiotics for two to three months. By that time IBC is so aggressive...
