Crystal Publishing, United States, 2012. Paperback. Book Condition: New. 226 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Sir Isaac Newton: Scientist, theologian, astronomer and mathematician; the scientist s scientist ! NASA s space program is founded on Newtonian physics. Newton the theologian assiduously sought within the Bible for The Plan of The World. At the heart of Newton s unshakeable belief - that contained somewhere in the Bible was the key to understanding the plan of the world - lay three major points: 1 - A rational God made a rational universe. 2 - All wisdom lay in the knowledge of numbers. 3 - Only a few natural laws apply to the whole universe. Albert Einstein: A colossus of science. His seminal Theory of Relativity and the great equation $E = mc^2$, have advanced the science of astronomy more than any idea since Newton s time. So, despite all of our subsequent technological advances in astronomy, it was still these two non-empirically minded colossi of science, who, using primarily their intuition and intellect, produced the most significant advances in the physics/theory of astronomy and thereby laid the foundation upon which all future advances now stand. Einstein stated that he . never came upon any of his discoveries through .rational thinking. Einstein understood the necessary connection between empirical science and what was for him clearly more productive, the non-empirical aspect. Many modern scientists would probably be dismissive of Einstein s non-empirical side of the equation. Yet the very same could not even begin to match either Einstein or Newton. So, using Einstein s superior non-empirical intuitive methods we have, in this work, clearly explained the true significance of The 7 Churches of The Revelation and thereby revealed Sir Isaac Newton s Plan of the World.
