

Dynamic Analysis of Ocean Structures

Filesize: 6.73 MB

Reviews

This ebook is definitely worth buying. It is definitely basic but excitement within the fifty percent in the ebook. Its been designed in an extremely straightforward way which is merely following i finished reading this ebook where basically changed me, alter the way in my opinion.

Book Condition: New. Publisher/Verlag: Springer, Berlin | Improvements in the design process as applied to ocean structures have received intense interest in recent years. Part of this interest stems from the growing realization that design on a purely deterministic basis is inadequate for structures subject to random loads, which are best described by statistical (or probability) methods. This book is an attempt to bridge the gap between present design practices and available analytical techniques (which may be exploited to improve present procedures). The book itself is an outgrowth of a set of notes prepared for an intensive short course presented over the past three years by the Engineering Extension Division of the University of California at Los Angeles, California. The ensuing presentation is composed of four parts. The material begins with a review of the physical environment (winds, surface gravity water waves and currents) for which engineering type formulations are presented. Hindcasting and forecasting techniques using spectral concepts are included. Special problem areas are enumerated. | I. Environment, Considerations for Design.- I - Wind and Wind Loadings.- 1.1 Wind Forces.- 1.2 Specific Weight of Air.- 1.3 Wind Velocity Records.- 1.4 Design Wind Velocities and Recurrence Interval.- 1.5 Wind Velocity Profiles.- 1.6 Nature of Gusts.- 1.7 Effect of Gusts.- 1.8 Drag and Lift Coefficients-Single Members.- 1.9 Drag and Lift Coefficients-Trusses.- 1.10 Drag and Lift Coefficients-Three Dimensional Effects (Sheltering).- 1.11 References.- II - Currents and Current Loadings.- 2.1 Nature of Currents.- 2.2 Interpretation of Model Test Data for Currents.- 2.3 Drag and Lift Coefficients.- 2.4 References.- III - Surface Gravity Water Waves.- 3.1 Introduction to Surface Gravity Water Waves.- 3.2 Definitions, Notation and Nomenclature.- 3.3 Basic Concepts.- 3.4 Classification of Waves-Part I.- 3.5 Classification of Waves-Part II.- 3.6 Classification of Waves-Part III.- 3.7 Breaking Waves and Wave Theory Selection.- 3.8...
