Excerpt: .fell to capital would be found by assuming that the dividend was one at the rate of 7 per cent per annum, and allocating for the period from 1st January to 31st May. In actual practice this is worked out as follows: On the receipt of the interim dividend at the rate of 6 per cent in July, the proportion effecting to capital, being the amount for the period from 1st January to 31st May, would be ascertained and placed to the credit of capital. On the receipt of the dividend for the next half-year, which would be received in January, the proportion thereof which would be required to bring the dividend from 1st January to 31st May already allocated at 6 per cent up to 7 would then be placed to capital. Further, suppose a trustee die on 26 th November, after having received the interim dividend at the rate of 6 per cent payable in July, the portion of the dividend paid in January following which would have to be placed to capital would be f fths of the dividend at the rate of 7 per cent per annum, less the amount of the interim dividend actually received. The portion effecting to revenue would be ths, being for the period from 26th November to 31st December at the rate of 7 per cent per annum. Bonuses returned as Capital. Bonuses not paid as dividends in the ordinary way, but as capital...
